

---When is runed there are all the buttons that are required the logo is non touchable is just a design

Showes where u add the movie and where u add year (is important to know that even if a movie doesn't have a year it still will save the movie without a year)

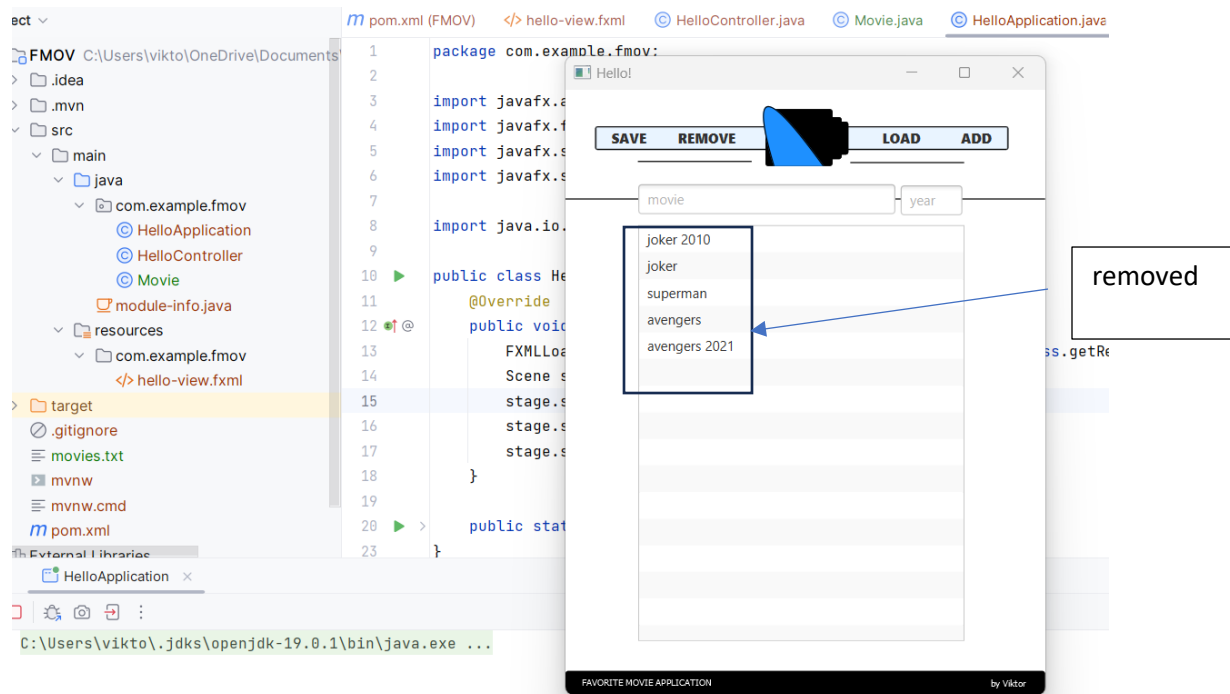

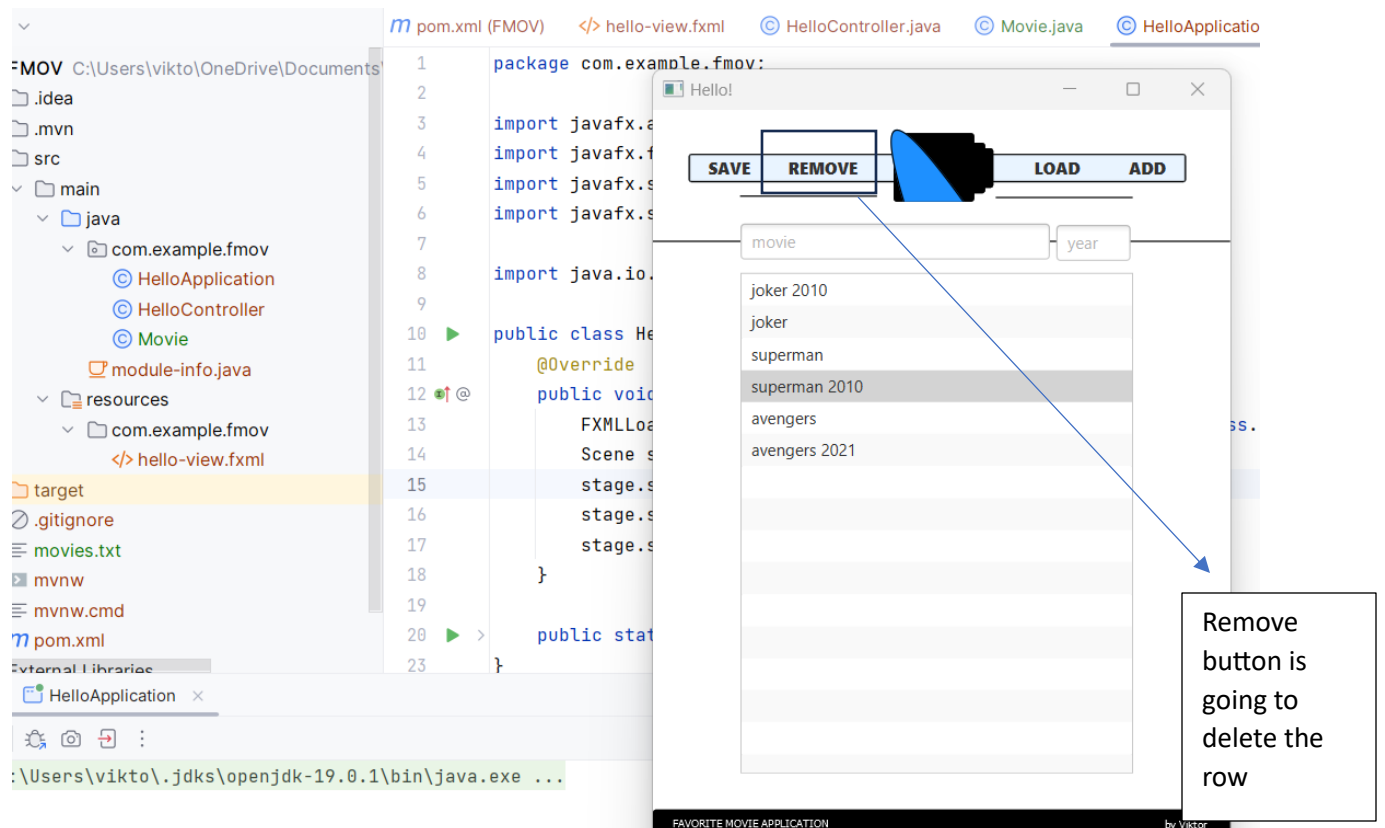

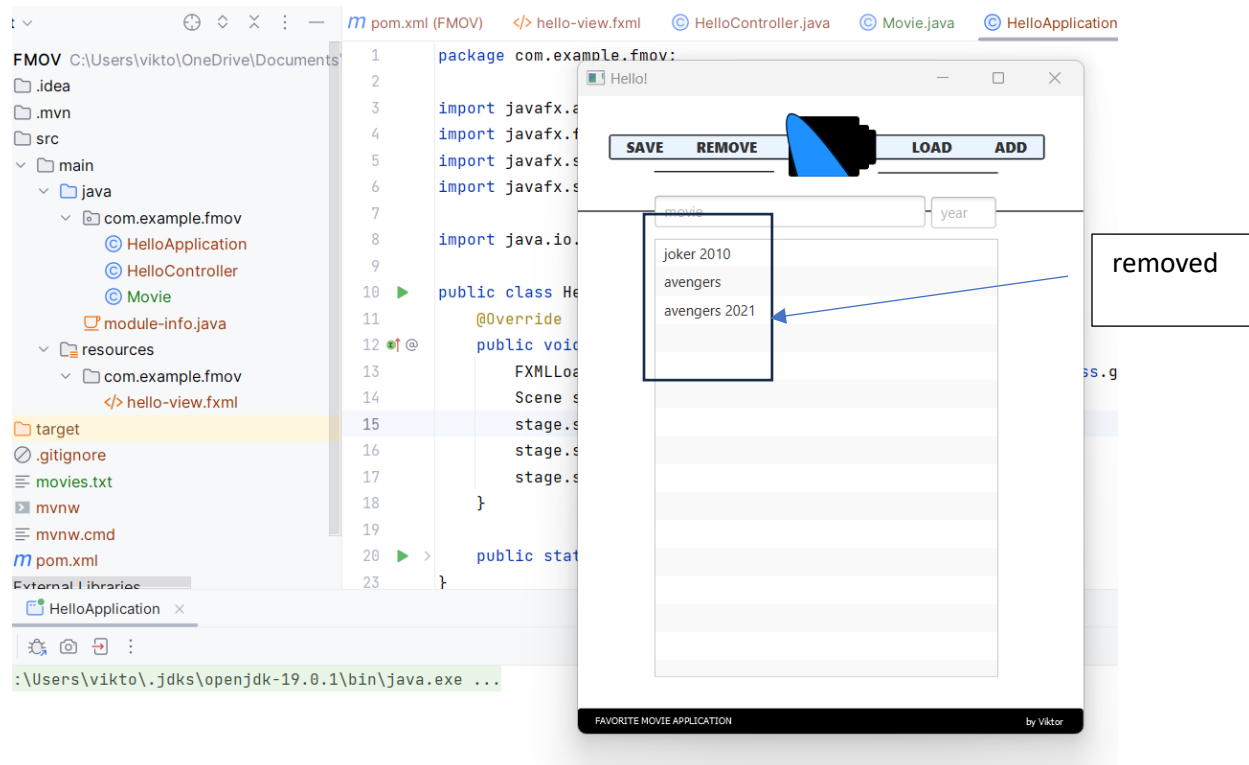

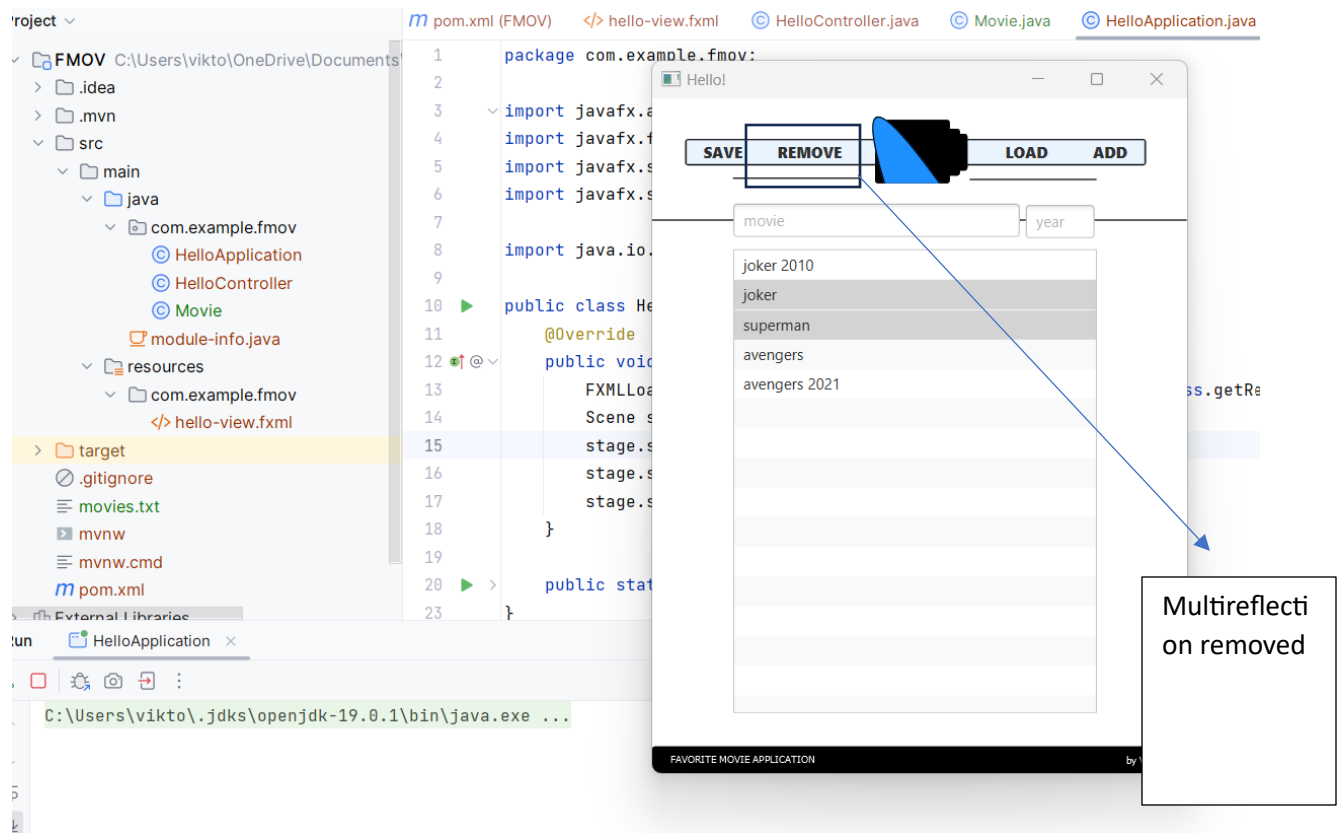

Save the movies
in .txt

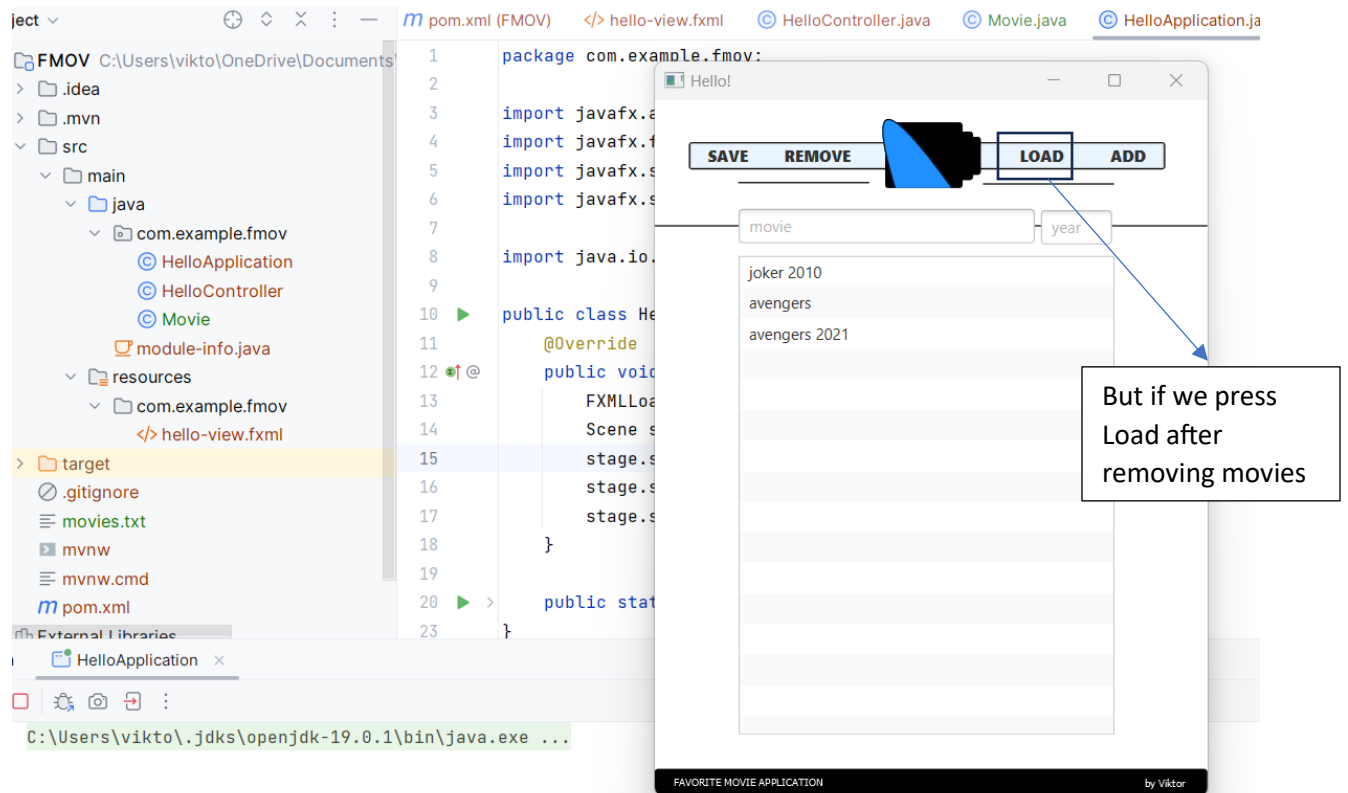

Movies.txt file

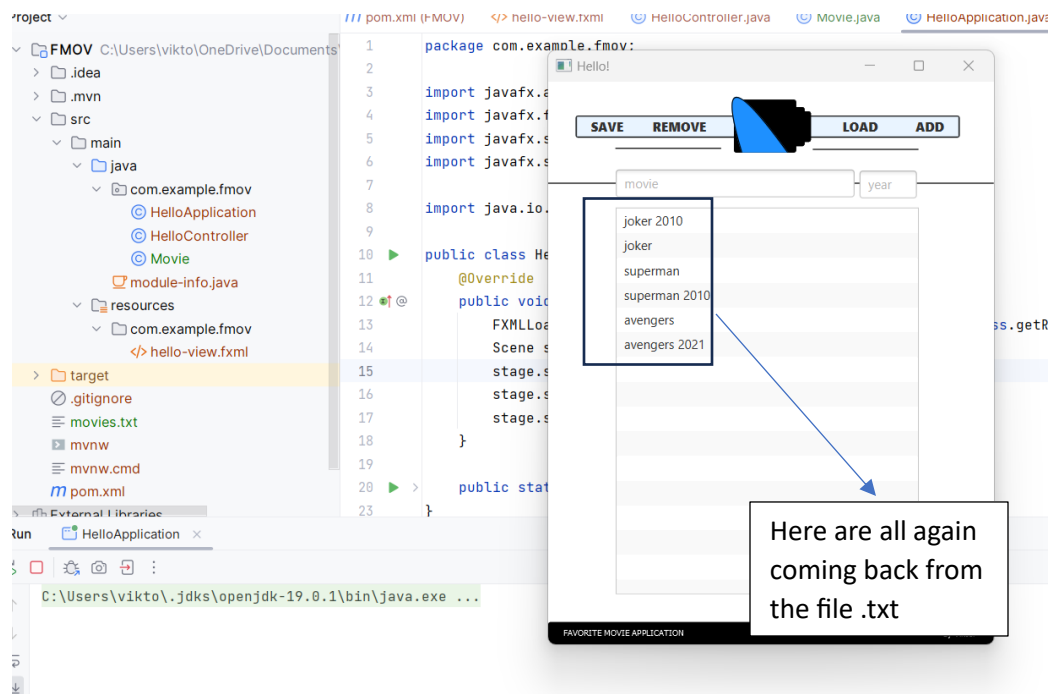

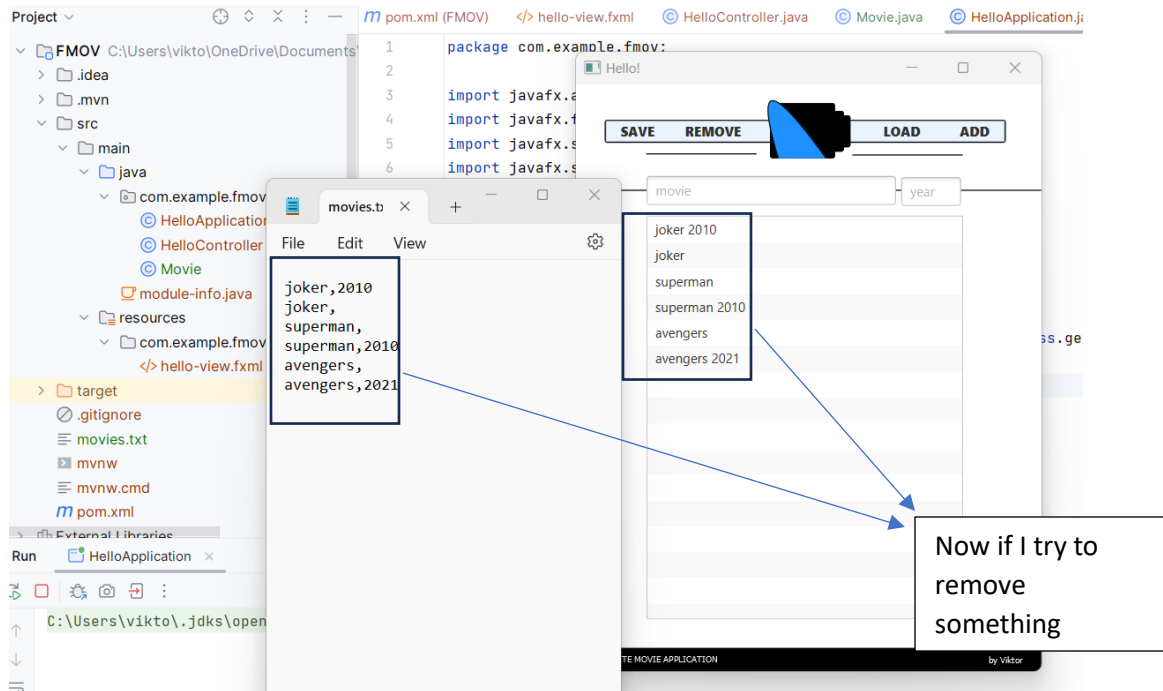

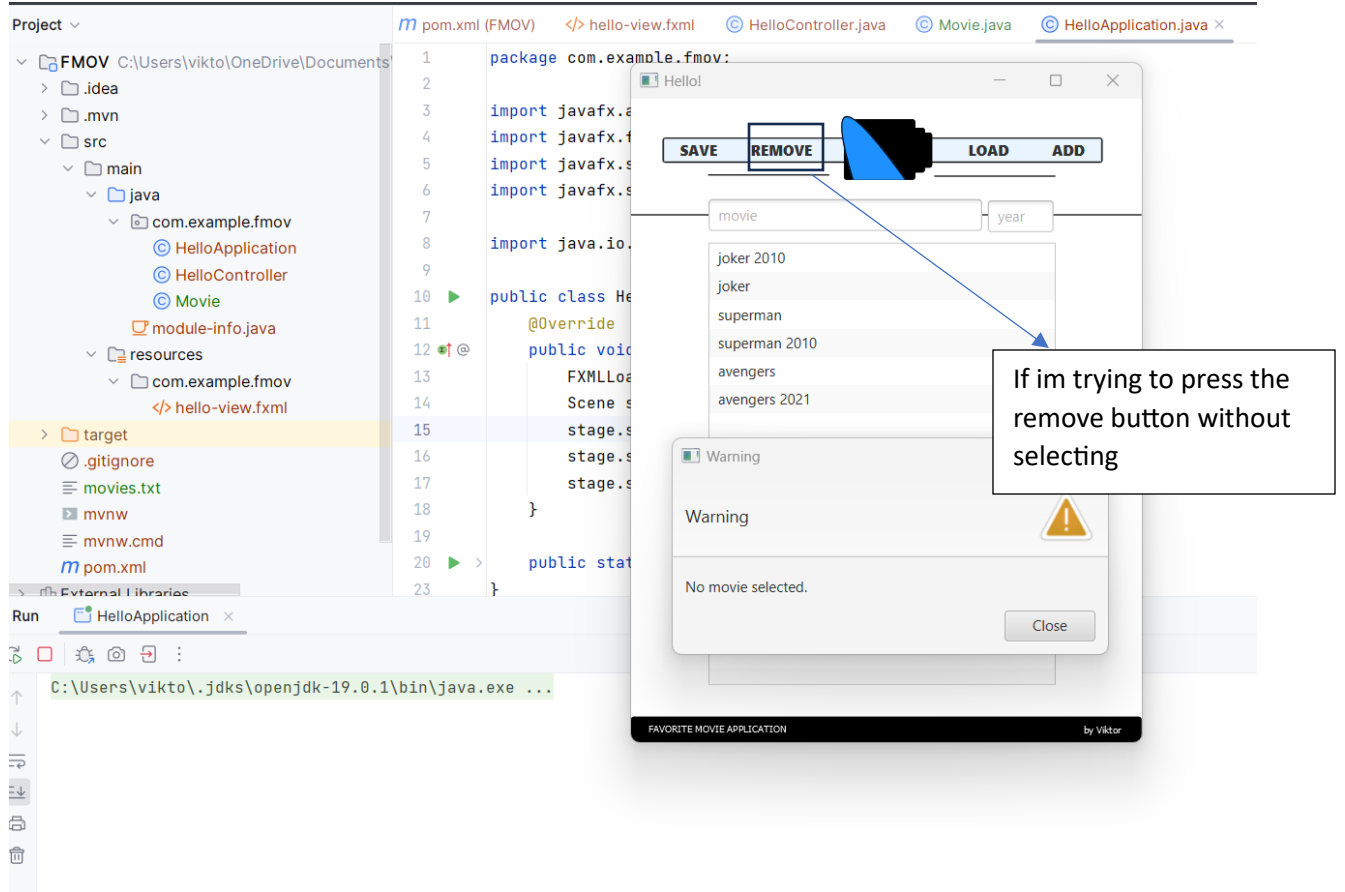

Using CTRL u can MUTISELECT and delete many rows --- but for now the superman 2010 is removed

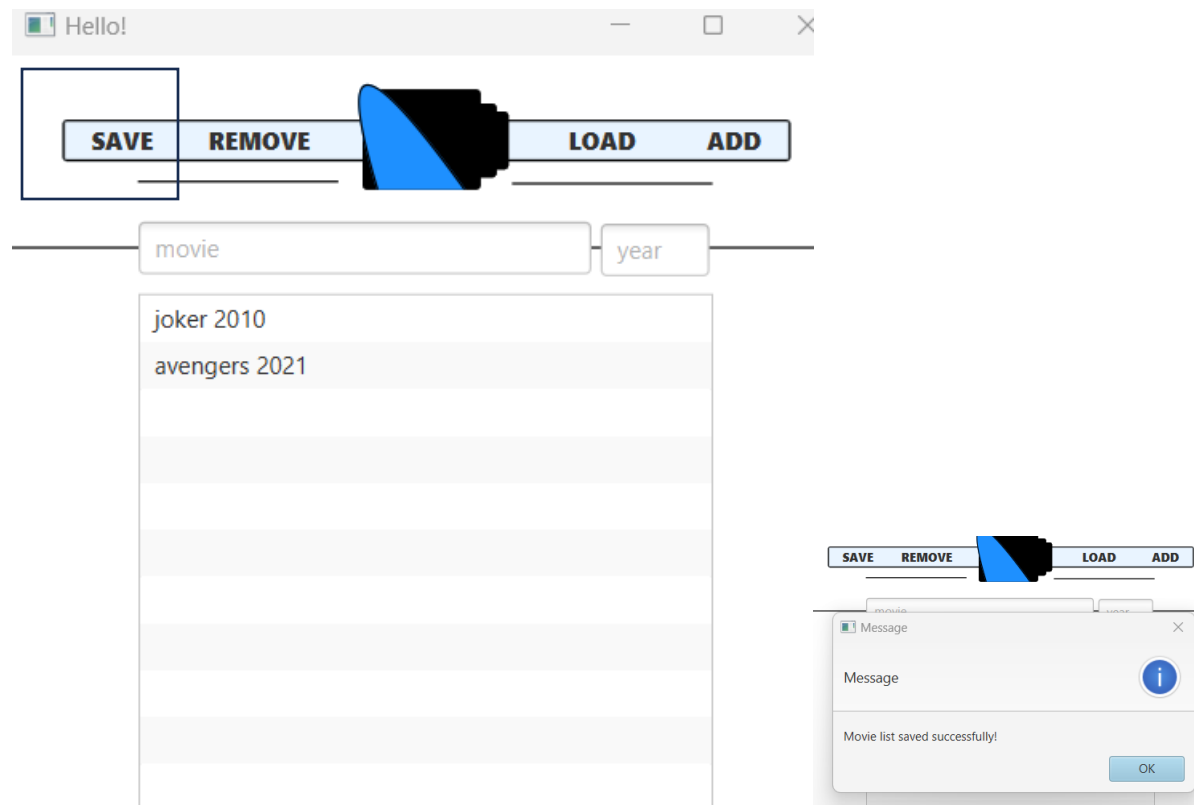

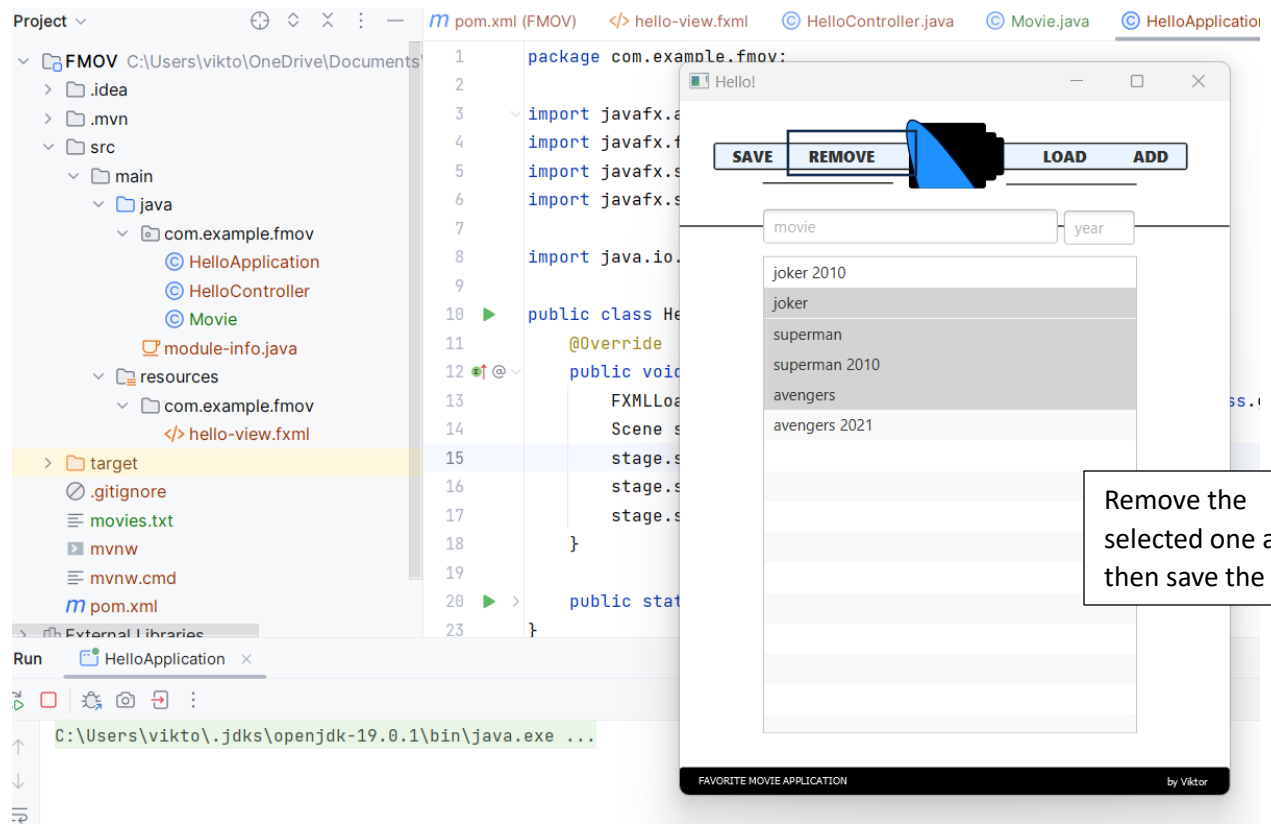

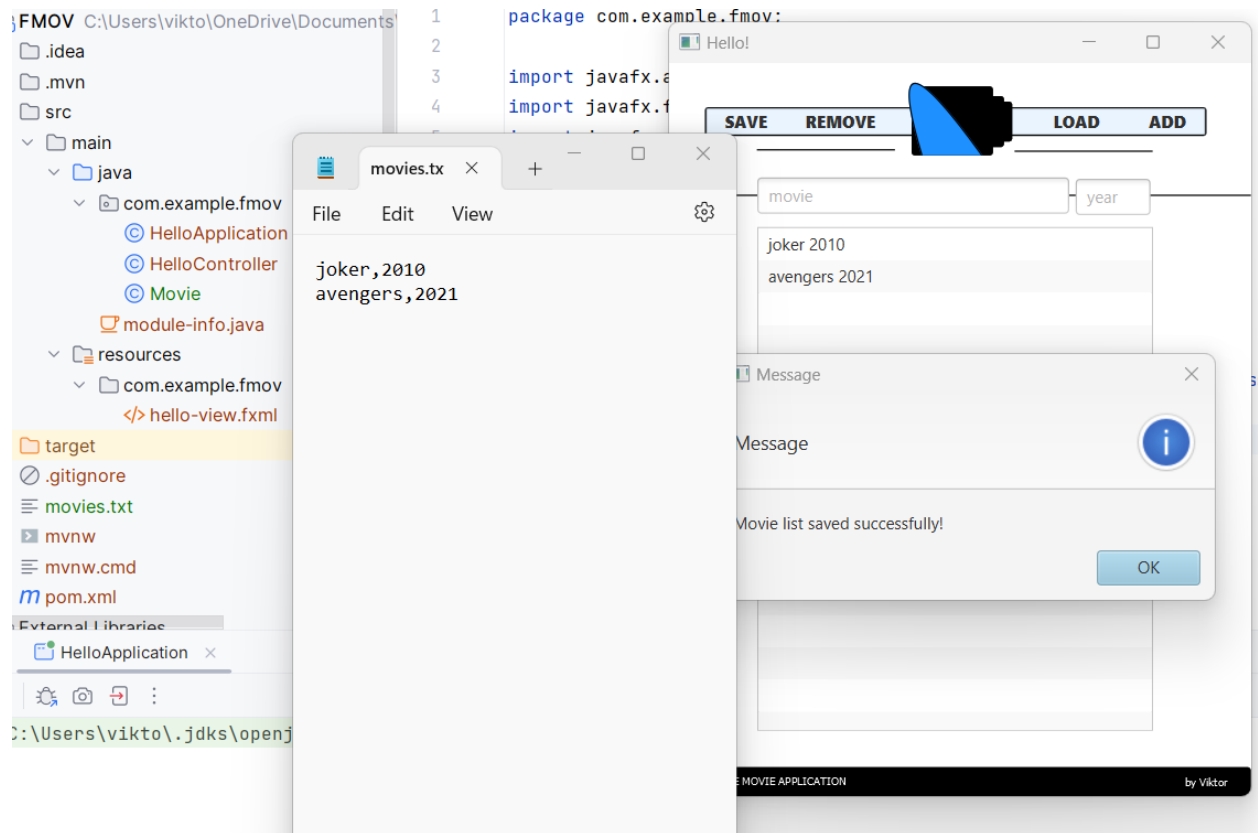

(IMPORTANT) it will take couple seconds to bring the file back... sometimes I need to double or triple tap till it shows everything saved again, loads back all the movies that where saved in the file

FINAL RESULT WITH THE MOVIES DELETED FORM THE .TXT FILE --- overwrites the same file
